PROSPECTUS
OF THE
Camden Commercial Courier.
THE Establishment of the COMMERCIAL COURIER was rendered necessary by the inconvenience to which our citizens have been subjected for the want of a public channel of communication which in a commercial community like Camden is essentially necessary, and consequently the COURIER'S claim on the public is such as should ensure a liberal patronage.

The undersigned have spared no trouble or expense in obtaining the best workmen in order to render the Paper all the advantages that it will admit of, and affording satisfaction to its patrons. In political matters the Courier will take no part; the design being to publish a Paper adapted to the interest of ALL, which could not be effected by its entering into the arena of Politics—it will be confined principally to such matters as appertain to Commerce, Agriculture and Amusement. The COURIER is published every Saturday morning at Three Dollars in advance, or Four Dollars if not paid until the expiration of the year. Persons wishing to become subscribers must address a letter (post paid) to L. M. JONES & Co. Camden, S. C. May, 1837.

THE subscriber having on hand too many goods for the present season, is very desirous of reducing his stock, which consists of Fancy and Staple Dry Goods and Groceries; all of which will be sold at very reduced prices for cash to suit the times. June 10 6 tf W. J. GERALD.

1500 LBS. PRIME LARD, in excellent order, in small firkins of about 100 lbs each—suitable for family use—will be sold low for cash, if immediately applied for. June 24 8 tf W. J. GERALD.

THE success of the SOUTHERN TONIC is unprecedented. It has been anxiously sought after by all persons in every part of the United States, and its widely extended distribution has been owing to the many requests received from every section of the South and South West. Although it originated in an obscure part of the country but a few years since, it is now found in all the principal towns and villages in the Union, and its virtues as a cure for Ague and Fever, and as a general Tonic, are appreciated by all who have used it. Being as it professes a compound of Southern Vegetables, it is needless to offer the assurance that there is no Arsenic, Mercury, nor any thing in the least hurtful to the human constitution in it. It will be found a valuable Medicine in all cases of Dyspepsia and disordered Stomach and Bowels, and patients convalescing from Bilious Fever, will derive the most important benefits from the use of the Southern Tonic. It may be administered to children and infants of the tender age with the utmost safety. Prepared by Coster and Cox at their Laboratory, at Montgomery Alabama. POSTPONEMENT OF THE DRAWING of the Splendid Scheme of the ALEXANDRIA LOTTERY, Class E, (Highest Capital \$75,000) from the 27th of May to the 23d of September next.

From the general embarrassment of the times; the deranged state of the domestic exchanges, and the difficulties attending the disposal of Bank Bills out of their immediate circles of issue, we have been solicited by agents and Vendors to postpone the drawing of the above scheme, for a short time, until the present crisis in the affairs of the country shall have passed away.

We have therefore yielded to these solicitations, and postpone the drawing of the Alexandria Lottery, Class E, from the 27th of May, to the 23d day of September next, when the drawing will positively take place.

Adventurers having purchased tickets in said class, and who do not wish to hold them until the drawing, can have their money returned by the agent or broker from whom they purchased—or can exchange them for tickets in classes to be drawn at an earlier day, as it may suit their pleasure.

The Managers have consented to this postponement with extreme reluctance, as it has always been their policy to draw every scheme at the time announced. The unparalleled state of the country, is the only cause of this one departure from the usual custom.

All the other schemes now before the public, will be punctually drawn on the days announced.

NOTICE.—The new Steamboat Company beg leave to inform the public that they are having a boat built in Baltimore of a light draught of water, for the express purpose of plying betwixt Camden and Charleston, and to be here early in Sept. It is confidently believed that she will be able with ease to navigate the Waterway at any stage of the river. Merchants and others from the upper country, will find it to their interest to have their goods and produce sent through this channel, as the freights will be reasonable,—in no case whatever, will any additional charge be made for lightering, nor any exertions or expense wanting to ensure regularity and despatch. She will ply in conjunction with the new steamer "Camden," whose success this last season has put the navigation of the Waterway by steam beyond a doubt. Both boats will be able to accommodate passengers comfortably, being neatly fitted up, with the ladies and gentlemen's cabins distinct and separate.

JONES' PATENT COTTON GIN.

THIS Gin can be made double, or single. If made double, they reduce labor, and give just double the quantity of cotton over the single cylinder Gin, no other kind having been in use previous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether small or large, one hand will be sufficient to attend them. The Gins have mechanical feeders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hacking operation it receives from the feeders, which make two revolutions to one of the saws, it is almost in a half gined state, before it descends to the saw. By a very simple arrangement of a screw to each set of gates, on which the loppers rest, and through which the teeth of the feeders pass, they can be made to feed slow or fast to suit the condition of the cotton at the time. When made double, the saws are placed on two sets of cylinders and turn upon each other in opposite directions, and are cleaned by two sets of brushes that have four revolutions to one of two saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feeders, &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. It may also be propelled by iron running gear. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large number of planters, merchants and others, and received their general approbation.

Several gentlemen have been so kind as to give the Patentee their written opinion respecting the merits of the Gin. A number of others could be added, but the following are deemed sufficient: From his Excellency Gov. White of Louisiana. New Orleans, Feb. 27, 1837.

Dr. A. Jones—Sir, In reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Saturday the 25th inst. and was very much pleased with its performance. The mere fact of its self-feeding, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the process, appeared to me to be better and cleaner than from the common Gins in use, and that it saves considerably in labor. Respectfully, &c.

E. D. WHITE.

From Mr. J. Campton, a wealthy planter, resident in the Parish of Rapide, Louisiana.

Dr. Jones—Dear Sir, I have examined your Patent Cotton Gin, with feeders, &c. And have seen it in operation, and approve of it so highly, that I have taken the liberty of ordering one for my plantation in time for the next crop.

Yours respectfully, J. COMPTON.

New Orleans, Feb. 28, 1837.

From Mr. A. Longer, an experienced and eminent Cotton Broker of New Orleans.

New Orleans, Feb. 28, 1837.

Dr. Jones—Dear Sir, In answer to your note of this morning, I will state, that I have carefully examined your new Patent Cotton Gin, and have found it far superior to those generally used in this

State it cleans the cotton much better, and gives it a much better appearance. I hope, for the good of the country, it may become widely appreciated. Yours sincerely, A. LONGER.

From Messrs. Forestall, High & Co. Commission Merchants.

Dr. A. Jones—Dear Sir, we have examined the sample of cotton left with us, cleaned by your Patent Cotton Gin, and also the cotton in its uncleaned state, and pronounce the same greatly superior to the average samples which have come under our observation this or preceding seasons. Very respectfully, your ob't servants, FORSTALL, HIGH & Co.

New Orleans, March 1, 1837.

From Col. Harris Smith Evans, a planter of Wilcox county; signed also by Dr. David J. Means, a planter of Green county, and Mr. Wm. C. Clifton, a planter of Dallas county, all of Ala.

Dr. Jones—Dear Sir, In reply to your inquiry concerning your inquiry concerning your new Patent Cotton Gin, we deem it no less a pleasure than a duty to say to you, emphatically, that we consider it a most decided and valuable improvement. We have examined it carefully and seen it in successful operation, and we feel no hesitancy in recommending it to the attention of planters generally. Most respectfully yours, &c.

HARRIS SMITH EVANS, DAVID J. MEANS, WM. C. CLIFTON.

New Orleans, March 7, 1837.

P. S.—As a further testimony of my confidence in the success of your Gin, you will please order two Double Gins of 80 saws in a stand each, for my plantation, and oblige yours truly, H. S. EVANS.

As a further proof of my confidence in your Gin, you will please order me a Double Gin, of the same size, for my plantation, and oblige yours respectfully, D. J. MEANS.

Mr. Clifton also stated, that if he had not just before bought two new Common Gins, that he would likewise have ordered one or two of the Patent Gins for his plantation.

From Mr. H. F. McKenna,
